What to expect in 2019?

Community Engagement Fellows Program (CEFP)

It provides a year-long professional development opportunity to individuals who cultivate member engagement and collaborative relationships within scientific associations, research collaborations and other communities of scientists.

Ensure the long-term sustainability of the project

Increase outreach to other research

Host training material created/used by

Following

And, one week and four hours later, I'm back at Frankfurt Airport. An exhausting but rewarding week. Made so many valuable connections and learned a great deal from everyone at #CEFP2019

Toby Hodges @tbyhdgs
Guten Morgen, Twitter. I've already been up three hours. Checked in and heading to my gate, ready to fly to the #CEFP2019 training week. Looking forward to meeting everyone!

3:42 AM - 18 Jan 2019

Mozilla Open Leaders

Work Open, Lead Open

Our seventh cohort of Mozilla Open Leaders starts in January 2019! We're looking for Open Leaders to fuel the Internet Health movement by designing and building projects that empower others to collaborate within inclusive communities.

Malvika Sharan @MalvikaSharan · 20h

Excited to join this cohort of @MozOpenLeaders. I'll focus on identifying ways to engage w/ community members who are less visible & underrepresented. Aim to set up a blog/article platform to share their ideas & visions at @EMBL Bio-IT community. #community #culture cc. @tbyhdgs
